

Special Olympics
Southern California
Desert

It is our mission to provide year-round sports training and athletic competition in a variety of Olympic-type sports for people eight years of age and older with intellectual disabilities. Through continuing opportunities athletes develop physical fitness, demonstrate courage, and participate in sharing gifts, skills and friendship with their families, other Special Olympic athletes and the community. Special Olympics is the largest amateur sports organization in the world.

We take pride in our programs and our athletes. All of our staff and coaches are volunteers. All funds raised go directly for the athletes to provide uniforms, transportation and competitive events. Thank you for supporting our program!

Enhancing the quality of life for people with developmental disabilities

DesertArc serves people with developmental disabilities, including autism, cerebral palsy, epilepsy, mental retardation and other medical conditions. Many have multiple disabilities and nearly all are low income. DesertArc currently has 900 clients enrolled in our programs.

DesertArc offers a broad array of services tailored to the unique needs of each client with the goal of helping them live as independently as possible. Programs and services include: vocational training, job development, job placement and employment, independent living support and 24 hour emergency assistance, hot meals and nutrition, transportation, advocacy for client needs and community integration. Only with the support of our community will these services continue to thrive.
